

## WATERBORNE AUTO GLOSS WATER PRIMER

### USE RECOMMENDATIONS

Indicated for the maintenance of paintings in general. Improves the result in the final finish, eliminating the blurring of the polishing, providing brightness. Must be applied manually after polishing or buffing with a machine, eliminating stains and scratches left by pads.

#### Chemical Composition

Emollient, Petroleum Distillate, Humectant, Thickener, Abrasive, Preservative, Fragrance and Water.

### APPLICATION DATA

#### Catalysis and/or Dilution

Ready to use.

#### Application

Shake well before using. Place a small amount of the product on the pad, spreading it evenly with light pressure. Should be applied in small areas. After application, remove the product using a clean and dry microfiber flannel, turning it constantly, so that the product residues are removed and the final finish is carried out.

#### Spreading Rate

This may vary depending on the condition of the vehicle.

### SURFACE PREPARATION

Make sure the work surface is clean and dry. Do not use on hot surfaces or under direct sunlight.

This information represents the best of our knowledge when this document was published. We remind you that optimal final results when applying the products depend on factors that exceed our control and that concern the surface preparation and the technical knowledge of the applicator. The company reserves the right to change these specifications without prior notice.

## **SAFETY RECOMMENDATION**

- Store the product in closed, ventilated environments with maximum temperatures of 40°C.
- Avoid skin contact using gloves, goggles, suitable garments, protective creams, etc.
- Keep away from children and animals.

## **COMMENTS**

The spreading rate of this product in practice will vary according to the thickness applied, method and application technique, the type and roughness of the substrate and environmental conditions, etc.

The instructions contained in these specifications are based on our experience and technical knowledge; however, some factors are beyond our control as a manufacturer, such as: surface preparation, application, working conditions, etc.

We take no responsibility for material and personal damage caused by the misuse of the information contained in these specifications and of the products mentioned.

These specifications are subject to change without prior notice.
