

TECHNICAL DATA SHEET

FR413-00 (REV. 02)

LIMPOFF ALCOHOL 70º ANJO

The LIMPOFF Alcohol 70º was developed for complete cleaning and hygiene. Its 70% alcohol concentration has antiseptic action, perfect for places where constant and repeated use is necessary. The sanitizer has an antiseptic efficiency of 99.99% against most disease-causing germs. Ideal for everyday use. Available in liquid, gel and aerosol form.

RECOMMENDATIONS FOR USE

It must be used in its pure form, on any surface or objects to be disinfected, whenever necessary. Its application is indicated in any industrial or institutional establishment that requires a good instant asepsis, such as: establishments in the health area, hospitals, medical and veterinary clinics, laboratories, food industries, industrial kitchens, restaurants, gyms, etc.; preventing crossed infections. Constant and repeated use recommended.

HANDLING AND STORAGE RECOMMENDATIONS

Before using, read the label instructions. Flammable. Keep away from fire or flames and heat sources. Keep out of reach from children and pets. Store it in a cool place and away from light. Do not store the product at temperatures above 43°C (109,4°F). In case of irritation or contact with eyes, the use must be suspended, and medical attention is required. In case of allergy or sensitization, discontinue the application and wash with plenty of water. Product only for external use. Do not ingest.
